Materials Guide

Self Adhesive Vinyl Signs: Choose if you are affixing the sign to a smooth, flat, clean surface like glass, mirrors, tiles or doors

Rigid Plastic Signs: Suitable for almost every application. Screws, glue or our double sided-sticky pads should be used to affix

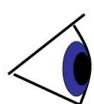

Aluminium Signs: Are ideal for outside use. Drill holes can be inserted on request for no extra cost

Polycarbonate: Ideal for outside use or areas where the sign may be exposed to vandalism

Photoluminescent Signs: Are ideal for emergency situations where the sign still needs to be read even if the lights fail in the event of a fire or emergency

Viewing Distances

Under different lighting conditions the following may help you decide which size you need:
