

Scroll Nuts

This high security nut is virtually impossible to remove without the unique matching driver. Due to its rounded design, there are no sharp angles to provide grip for normal hand tools. This scroll nut is suitable for medium-to-high torque applications and is manufactured from A2 Stainless Steel.

		Gauge										
		M3	M4	M5	M6	M8	M10	M12	M16	M20	M24
