Instructions Sheet (Inside Front Cover)

MEWP Checks

Paperwork:	Manufacturer's manual read and understood, valid 6 month thorough examination test certificate
Fuel/Water/Oil:	Levels as per manufacturer's handbook
Batteries:	Fully charged, free from corrosion, adequate electrolyte levels
Tyres:	Correct pressure, free from damage, wheel nuts securely in place
Lights:	Working and clearly visible
Alarm Systems:	Fully operational and audible
Brakes:	Efficient & working
Hydraulics:	Fluid levels adequate, free from leaks (including stabilisers if appropriate)
Controls:	All operating correctly, including: ground station; platform workstation; drive systems
Safety Devices:	Guard rails, entrance-gate latches & harness points secure. Safety cut-out in place
Stop/Go Mechanisms:	Machine starts & emergency stop/lowering/slewing mechanism is operational
Structure:	Level & stable, free from visible defect and debris, retaining pins secure and in position
Powered Movement:	For raising, lowering, telescoping, slewing & steering in good working order
Hoses/Fittings/ Wiring/Valves:	Free from leaks and damage, securely in place
SWL/Rated Load:	Sign in place and maximum load adhered to
Environment:	Ground conditions, overhead cables and wind/weather acceptable

Only trained and competent operators/inspectors should be allowed to operate a MEWP. Never use the MEWP as a jack, prop or tie to support other structures or machines. Never attempt to climb the lattices formed by a scissor lift, await recovery in the event of a break-down. For information specific to your MEWP refer to your manufacturer's manual.
