SMOKE DETECTOR CAGE

UL-listed protectors for areas where abuse to smoke detectors is severe

STI borrowed from nature's master builder, the spider, to create a web of protection from vandalism and accidental damage with these nine UL-listed wire guards. Six are constructed of 9-gauge steel wire with corrosion-resistant polyester coating. Three are constructed of 9-gauge stainless steel wire. Together, they cover virtually every smoke detector model that is available today.

Backed by a lifetime guarantee

As all STI protective covers, these Steel Web Stoppers are backed by a lifetime guarantee against breakage in normal use. Installation and servicing are easy with models for both flush and surface mounting. They are highly recommended for areas where abuse to smoke detectors is severe.

STI 9609

STI 9609-SS

Features

- Patented (D368,670) web-like octagon shape of 9-gauge coated steel wire makes them extremely difficult to break.
- Fast, easy installation.
- Tamper resistant hardware is available.
- Nine models to fit virtually all smoke detectors available today.
- Simple removal for servicing detector.
- May be spray painted once prior to installation to match decor.
- UL and cUL listed (85Y2) and CSFM (7300-14:100) approved.
- Lifetime guarantee against breakage in normal use.
- Stainless steel version available in three sizes; two for flush mount, one for surface mount.
