

# WIDEBODY KEYPAD PROTECTOR

## To Extend the Life of Larger Keypads, Access Controls and Similar Devices

Here is a super tough protective cover to increase the life and reliability of larger digital keypads, access controls, alarms and similar devices by protecting them from accidental or intention damage, as well as severe environments and dirt, dust and grime. Optional gaskets are available to help keep out water in wet locations and washdown areas. Two models are offered, one with a lock and one without. Each comes in either clear or smoked. Spacers are available for surface mounting and to cover even larger units. Installation is simple with anchors and screws provided.

6560

## Backed by a Lifetime Guarantee

As all STI protective covers, Widebody is backed by a lifetime guarantee against breakage and damage in normal use. It is moulded of thick, super tough polycarbonate material.

### Features

- Moulded of thick, super tough polycarbonate material.
- Protection against physical damage, dust, grime and harsh environments inside and out.
- Gasket available for use in areas that require frequent hosing down or have a wet environment.
- Fast, easy installation.
- Available with or without a key lock.
- Can dramatically extend the life of equipment in salt-water areas, such as aboard ocean-going ships, on oil rigs or at beach-front condos.
- Available in clear or smoke color.
- Lifetime guarantee against breakage in normal usage.
- Polycarbonate rated -40°F to 120°F (-40°C to 49°C).

## WIDEBODY KEYPAD PROTECTOR
